PROJECT EXPERIENCE

eRed Book — Electronic record keeping system for babies health records- [demo-video](#) [github](#)

- Design UI, frontend with React, Recharts for weight graphs and backend with MySQL Database, ExpressJs, Node, Knex, Objection, RestAPI and JWT authentication that maintains session, encrypts user password hashing.
- Next iteration of this project backend will be GraphQL, MongoDB Atlas, JWT and TypeScript

WORK EXPERIENCE

Software Developer, Freelance, London, November 2022 – Present

- Revamped a client's in the property industry's website in React, including mailchimp integration.
- Created customisable, responsive React landing page. Client only needs to edit a js file to change text and image.

Senior Assistant, NHS (Health Visitors), London, Feb 2017 – May 2022

- Streamlined the core administrative work processes, making them more efficient, then created workflow diagrams for the team this improved our team efficiency by 50%.
- Created custom Excel spreadsheets to improve the equality of workload among colleagues. Improving team morale and providing transparency by creating a workload management document.

IT Support, Pan Ocean Oil, Lagos, NIGERIA, 2011 – SEPTEMBER 2013

- Worked as a team setting up the IT infrastructure in an onshore oil rig and also being part of the rig IT support rotation.
- After a company emergency move, the vendor mislabelled the network access ports. This created a huge issue, while the IT Support team was troubleshooting I suggested we document the correct access ports. This documentation reduced the company downtime by 75% when the vendor came to fix the problem.

EDUCATION

BrainStation, London, UK. UX/UI Design course — October 2022 - November 2022

BrainStation, London, UK. Software Engineering Full time Bootcamp — May 2022 - August 2022

Robert Gordon University, Aberdeen, Scotland UK. MSc Information Technology — Sept 2013 - January 2015

Covenant University, Ota, Nigeria BEng Computer Engineering — 2005 - 2011
