

# ADELEYE IFATUROTI

## REACT DEVELOPER

### PROJECTS

- eRed Book (Solo): Built an Electronic record-keeping application to replace red book used for new babies and parents.  
Technologies used: React, Axios, Express, MySQL, Knex Js, Node, RestAPI, Recharts, Sass and JWT.
- Trivia Game website (Solo): A website that retrieves questions from a server. Points are based on the difficulty of the questions answered correctly.
- Mobile-Wallet (Solo): Personal finance app for logging income and expenses for assessing finance.

### EXPERIENCE

#### React Developer | BrainStation (Coding Bootcamp)

MAY - AUGUST 2022, LONDON, UK

- FixIT (Group Project): A mobile application that connects users that want to restore, repair or refashion their furniture or clothes to professionals that can provide this service. Build by myself an a colleague in 24 hours
- Researching technologies, techniques and using them to make fully interactive and immersive applications and websites

#### Senior Assistant | NHS (Health Visitors)

FEB 2017 - MAY 2022, LONDON, UK

- Streamlined the core administrative work processes, making them more efficient, then created workflow diagrams for the team this improved our team efficiency by 50%.
- Created custom Excel spreadsheets to improve the equality of workload among colleagues. Improving team morale and providing transparency by creating a workload management document.

#### 2nd Line IT Support| Pan Ocean Oil

2011 - SEPT 2013, LAGOS, NIGERIA

- Worked as a team setting up the IT infrastructure in an onshore oil rig and also being part of the rig IT support rotation.
- After a company emergency move, which the vendor mislabelled the network access ports. This created a huge issue, while the IT Support team was troubleshooting I suggested we document the correct access ports. This documentation reduced the company downtime by 75% when the vendor came to fix the problem.

### SELF TAUGHT / ONLINE COURSES

Typescript	Java	Spring	NextJs	AWS
Hibernate	GraphQL	Jest	CI/CD Git Actions	NextJs
